[illegible]

Modern structure of the government is very complex. For better understanding we decide to write full structure of the government and collect all adopted governmental flags in one article.

Not all ministries and agencies have official symbols till now. Some departments have adopted emblems only but have no flags. In this issue you will find information only about ministries and agencies which have officially adopted flags.

Images have short comments about the date and decree of adoption. Usually these Decrees adopted by the President. But some flags of agencies controlled by government adopted by Decisions of the Government.

Used images from official web-pages of the government ([www.gov.ru](http://www.gov.ru)), separate ministries and agencies and from great web-site of M.Koroteev "Attributes of State power" <http://gossiluzhba.narod.ru/> (with permission).

## Symbols of Tyumen Region

New version of regional flag and coat of arms adopted by Decision of Tyumen Regional Duma №1005 from 24.10.2008.

Now all three crowns of Tyumen flag are yellow (former version – one white and two yellow crowns). Coat of arms seriously redesigned. New images made by A.Greifenstein.
